**What is Walk to Work Day?**

Walk to Work Day is an opportunity to raise awareness about personal choices. This event focuses on personal action as well as physical and mental well-being benefits. Walk to Work Day's short term goal is to educate commuters that they can participate in an easy, fun, healthy, and more sustainable activity, as part of their daily routines.

The event's long term goal is to increase walking, the greenest form of transportation. By creating a strong, local voice for pedestrian advocacy, commuters, and the community at large, Walk to Work Day participants and members of Walk SF can help make San Francisco's streets safer and more walk-able.
