TMASF Connects Work Program provides resources to enhance skills and improve the work lives of San Francisco's local workforce.

Come celebrate the new features of the Work Program with us! TMA SF Connects is proud to announce the launch of the [**TMA SF Connects Professional Development Network \(PDN\)**](#). The PDN aims to serve as a hub for students and interns as well as employers and tenants of our member buildings, bridging gaps for professional interaction.

Please [click here](#) to join the network.

In addition, we are launching our [Employer Survey](#), a complement to our **Student Survey**. The [Student Survey](#) assesses the tools and skills Bay Area students already have, and what other needs they may have to take the next step in their careers. With the Employer Survey, we can determine what students and interns should expect as they continue on their careers and into the workplace, helping us to craft relevant programs for the incoming workforce.

Please [click here](#) to take the Employer Survey.

Complete the survey by March 29th and enter to win our raffle for your chance to win a pair of Giants Opening Day tickets for April 3rd against the Mariners!

You are receiving this email because you either are a tenant in one of our member buildings, registered to win prizes on our website, or participated in a raffle at a member building or public commute event.

We hope to see you on our [network](#) and are looking forward to your feedback and participation!
