

## Member Update

All of us at TMASF Connects – staff and board of directors hope that each of you, your families and teams are healthy and safe. We have always appreciated the good that our membership does for the workforce. The ability to work in any of our member buildings is a privilege and something to savor. We continue to miss travelling to our offices each day. And, we look forward to our return when conditions change.

Since we have been working remotely, our team has taken on several major efforts:

The TMASF Connects [website](#) has been revamped, simplified and further updated for mobile use. In acknowledgement that a growing number of our members need printed materials, the site is easily printable. Streamlined colors, lack of graphics and updated programming have truly transformed our website;

Please take a look at the [Connects Link map](#) – find your building and see what information is provided for tenant amenities. We will be reaching out to each member to update your building profile over the next few months;

We have developed a simple flier about using the site that is ready to be sent to all of your tenants. Although many of our member tenants are working remotely, we offer many resources to help anyone with commute, career or community access to more information and tools;

Currently, we are completing a comprehensive Employer and Employee guide to working within the new system of benefits and changes to current employment rules;

Looking ahead to meeting the needs of job seekers, our team has begun planning future services that should be helpful as the workforce returns to their jobs;

And, we will be sending updated information about the public transportation services that have changed and those that are still available.

We have completed the survey and the final analysis for the report is in progress. It is our intention to file the report with The City Planning Department in early to mid-April 2020. The Planning Department are also working remotely.

We are keeping normal business hours and checking the phone routinely. Our staff is effective in these troubling times and we remain ready to assist our members and their tenants as necessary. Continue to look for more changes that simplifies the site and ease of access over the next few months.

Thank you for your membership. We truly miss our office and the ability to see so many of our member buildings on a daily basis as we walk to work or look out our windows.
