

Foreign Language Translation Policy

TMASF Connects is committed to offering clear, concise and helpful information for our members. Our Commute topics generally include public transportation and alternatives to driving alone information. Career program focuses on life-long learning, workforce and employment trends and updates and information to help employers and employees thrive while located in San Francisco. The Community program is designed to link people to resources to find daycare for all ages & for mankind's best friend, the dog. The Community site also links people to resources designed to help people navigate their daily working lives.

In an effort to reach beyond our usual scope, we have selected, what we believe to be very important information to everyone. To that end, we have used the Microsoft Word Translator feature to further broaden the reach of selected messages. We hope this is a helpful feature. We cannot claim to have proofread the language translator for any language translated. We trust Microsoft as much of the world does and believe these translations are accurate and reflect our intended message. The tool is not perfect, and the context of the text may not be taken into account when it is translated. As a result, sometimes the translation may lose some of its intended meaning. Therefore, we cannot guarantee the accuracy of the converted text. Any differences or discrepancies created in the translation are not binding and have no legal effect for compliance or enforcement purposes. Where there is any question, the English version is always the authoritative version of the website. We do not assume any responsibility for translation errors and will use the Translator function as we believe it is warranted.
