

———— Purpose of this piece ————

Each year, TMASF Connects provides printed materials for our property management members to use in the event of an emergency or power disruption. This is not possible this year because of the disrupted transportation services related to COVID-19.

The information we are providing is a cheat sheet to be used when online services are unavailable. It is designed for easy printing and distribution if needed. It is intended to be a tool for property management to assist their tenants. We encourage you to share this piece with your tenants and keep a couple of printed copies on hand.

For transportation information across the region, [dial 511](#). This is a national program that is available in most regions of the United States. It is publicly funded and there is no charge for use.

For connection to City and County of San Francisco (CCSF) service help, please [dial 311](#) to access most City operated agencies and services - free of charge.

For CCSF Health & Human resources connection, [dial 211](#) - no charge for use.

Lastly, [TMASF Connects Commute](#) offers an extensive page to both immediate and longer-term trip planning and next trip options.

Links are provided for easy access from this document online. The phone assistance lines are open 24/7 and information is available in several languages.
