

San Francisco Reopening at Purple Tier - Restrictions on Indoor and Outdoor Activity

Today, January 28th, the city of San Francisco will be reopening under the [State's Purple Tier](#). While TMASF Connects does not condone any particular indoor or outdoor activities, we would like to inform you of new and updated restrictions below.

- The following **indoor** businesses continue to be suspended until further notice: dining, gyms/fitness centers (with the exception of one-on-one training), movie theaters, museums, aquariums, zoos, and religious/cultural centers (with the exception of individual prayer)
- The following is allowed **outdoors**: religious and cultural ceremonies, museums, zoos, playgrounds and family entertainment centers, recreation, and gatherings at varying amounts of capacity. Please see the attached for capacity restrictions
- Retail is allowed indoors (up to 25% capacity for retail stores and 50% for standalone grocery stores) and outdoors
- Dining is allowed outdoors (with a table limit of 6 people from 2 households). Tables must be at least six feet apart and barriers cannot be used in lieu of this
- Gyms/fitness centers are allowed outdoors (social distancing required, up to 25 people for classes)
- Personal services are allowed indoors (up to 25% capacity) and outdoors. Services cannot involve the removal of face coverings
- Hotels and lodging facilities are allowed indoors. Reservations from outside of the 10 Bay Area counties must be over 10 days in order to quarantine
- Office facilities (nonessential) are restricted. Ventilation signage must be posted including new Breakrooms requirement

Please [Click Here](#) or see the a document below from the SF Department of Public Health for more information and share this with your tenants.

Notice of Suspension or Restrictions of Indoor and Outdoor Activity

January 27, 2021

In alignment with the State’s recommendations, San Francisco is reopening at the State’s Purple Tier starting January 28, 2021. The decision to reopen balances the public health risks of COVID-19 transmission with the public health risks of economic and mental health stress. **COVID-19 case rates are twice as high now as they were the last time San Francisco opened at the State’s Purple Tier.** This means twice as many people walking around San Francisco have COVID-19 than the last time we reopened. **Most COVID-19 infections are caused by people who have no symptoms of illness.** We also have the added risk of new virus variants and mutations in the community, and it is unclear whether these variants will be more contagious and/or more deadly. The opening of sectors does not signify that these activities are “safe.” We have made our best efforts to make these activities and sectors safer for workers and the public. However, this requires that everyone do their part to make these activities as safe as possible, including wearing masks that covers your mouth and nose especially when talking, avoiding indoor settings to the extent possible, maintaining at least 6 feet distance from those you don’t live with, avoiding get-togethers and gatherings to the extent possible, getting tested and isolating if you are ill, and complying with additional health protocols required of open businesses.

Any prior changes in business capacities and other activities required under the amendments must have been implemented by their respective effective dates, and any new changes will take effect by January 28, 2021. If cases rise, the Health Officer may further restrict or suspend other activities currently allowed under Health Officer Order C19-07.

Important Notes: (1) As long as San Francisco is in the purple tier, the **mandatory 10 pm closure will continue to apply** so activities will be restricted between 10pm and 5am. (2) The Health Officer ordered suspensions or restrictions on capacity limits of the activities as shown in the table below. Suspended or restricted businesses may still engage in Minimum Basic Operations as defined in Health Officer Order C19-07. These suspensions or restrictions amend any related orders, directives, or guidance. All impacted people and entities are required to adhere to these new limits and must otherwise continue to monitor and comply with all applicable [Health Orders](#) and [Directives](#).

Business Capacities and Activities Table
